PROFESSIONAL SUMMARY

Senior DevOps & Platform Engineer with 8+ years of experience building and operating cloud-native **infrastructure across enterprise-scale environments**. Specialise in designing platforms that engineering teams can rely on — stable, scalable, and easy to operate in production. My work sits at the intersection of **cloud infrastructure, automation, and reliability engineering** — from provisioning to production operations, CI/CD to observability, and DevSecOps to DataOps. Exploring ML Infrastructure, AI-integrated operations, and GPU workload scheduling on Kubernetes.

CORE COMPETENCIES

Cloud & Infrastructure: Microsoft Azure	Security & Edge: Akamai, SCIM, SonarQube, DevSecOps, Checkov, Prowler, TFsec
Observability: Datadog APM, Azure Monitor, Grafana, Prometheus, Loki	Containers & Orchestration: Kubernetes, Docker, Helm, ArgoCD
IaC & Automation: Terraform, Ansible, Bash, Python	DataOps: Databricks, Unity Catalog, SQL, Azure data factory, Functions apps
CI/CD: Azure DevOps, Artifactory, SonarQube, Git, GitHub Actions	Collaboration: Jira, Confluence, ServiceNow, Agile / Scrum, Slack

PROFESSIONAL EXPERIENCE

Senior DevOps Consultant | **Xebia** | *Project - Imperial*

Gurugram, India · Jun 2024 – Present

Owning the end-to-end infrastructure from provisioning to production operations on an enterprise-scale Azure cloud platform.

- Operating and managing **Kubernetes (AKS) clusters** — workload scheduling, troubleshooting, and automated scaling.
- Building and maintaining CI/CD pipelines on Azure DevOps and GitHub Actions with automated quality and security gates.
- Provisioning cloud infrastructure using reusable **Terraform modules** across multiple environments.
- Setting up observability using **Datadog APM** for monitoring and alerting.
- Implementing **security** scanning with **Checkov, Prowler, and tfsec** — and remediating Defender for Cloud findings across multiple Azure subscriptions.
- Configuring **Akamai CDN** — traffic routing, edge caching, and security policy enforcement.
- Automating **Databricks** user access and data governance using SCIM provisioning and **Unity Catalog**.
- Managing Azure data platforms and applications — including ADF, Synapse, Databricks, Function Apps, and App Services.
- Serving on rotation duty — handling production incidents, environment issues, and live troubleshooting across the platform.
- Acting as the go-to DevOps point of contact for development teams — resolving build, deployment, and infrastructure issues day-to-day.

DevOps Consultant | **Capgemini** | *Project - HP*

Noida, India · Jul 2022 – Jun 2024

Worked as a DevOps Consultant on a global enterprise data and application platform.

- Building CI/CD pipelines for **Azure data and application** services — ADF, Synapse, Databricks, App Service, Function Apps, Logic Apps, and Azure SQL.
- Designing infrastructure provisioning templates using **Terraform and ARM Templates**.
- Integrating **SonarQube, Veracode, and Nexus** into release pipelines.
- Setting up Azure Monitor, Log Analytics, and Application Insights for application and infrastructure visibility.
- Implementing Python and PowerShell automation via REST APIs across team workflows.
- Exploring containerisation with AKS and Helm — validating Kubernetes deployment patterns.

DevOps Engineer | **Tata Consultancy Services (TCS)** | *Project - AP Moller*

Noida, India · Mar 2018 – Jul 2022

Worked as a DevOps Engineer on a global logistics and e-commerce platform.

- Setting up monitoring and observability using **Datadog APM across distributed services**.
- Building and maintaining **Jenkins** CI/CD pipelines — plugin management, node configuration, and release automation.
- Automating infrastructure configuration using **Ansible and Bash** across production and non-production environments.
- Working on **incident** response and **root cause analysis** — investigating production issues and leading postmortems.
- Developing REST and SOAP API automation across operational systems.
- Supporting distributed system components — Apache, load balancers, MySQL databases, and Linux systems.

CERTIFICATIONS

- [Microsoft Certified: Azure Solutions Architect Expert](#)
- [Microsoft Certified: Azure DevOps Engineer Expert](#)
- [Microsoft Certified: Azure Administrator Associate](#)

AWARDS & RECOGNITION

STAR Award · Capgemini · Dec 2023 | On-the-Spot Award (×3) · TCS · Aug 2019 · Sep 2019 · Jul 2021

EDUCATION

Master of Computer Applications (MCA) · [Satra University](#)
Bachelor of Computer Applications (BCA) · [Dr. Bhimrao Ambedkar University](#).
